

# Your weinor specialist dealer

The experienced and knowledgeable weinor specialist dealer is your contact for all weinor products. This is because weinor products are only available from these approved partners, not directly from the manufacturer. Every weinor product is individually made to measure so is completely bespoke. And yet it is only a short journey to your beautiful new patio/terrace space.

## 5 steps to your beautiful outdoor space

weinor specialist partners can be found at [www.weinor.com/retailer-partner-search](http://www.weinor.com/retailer-partner-search)

Contact your weinor specialist dealer

Get bespoke individual advice on the full range of weinor products

A comprehensive survey will ensure all questions are answered

Secure installation by your weinor specialist dealer and then: enjoy the results!

## 5 strengths of your weinor specialist dealer

### 1 Comprehensive advice

The weinor specialist dealer offers you detailed advice on all aspects of weinor products. They will take your individual requirements into account. As a rule, they will visit you on site and find the best solution to suit your specific requirements and needs.

### 2 Diverse showroom options

Most weinor specialist retailers have their own showroom. There you can experience weinor products and the extensive range of accessories live - and most of them are even in their original size. You can look forward to smart functions, the high-quality fabric collection and a huge selection of frame colours.

### 3 A made to measure product, perfectly planned and accurately costed

Every weinor product is made to measure so a detailed survey is essential to ensure the correct product and specification is met. This will take into account all technical elements of the product concerned so an accurate and final cost can be agreed.

### 4 Safe installation by an approved specialist

The installation teams used by our weinor specialist dealers receive regular training to ensure that the work is carried out professionally and to recommended specifications. They are also very familiar with difficult installation situations so any surprise issues can normally be simply dealt with. On-time delivery, cleanliness and friendliness are a matter of course.

### 5 Best service

To ensure that the value of your weinor product is retained in the long term, you have the option of agreeing a maintenance contract with your weinor specialist dealer. If there is ever a problem, you can always get reliable advice and customer service.
