

VERTICAL AWNINGS

VERTITEX II

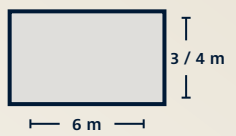

Subtle design, versatile use

Oval awning

Cubic awning

Max. dimensions

Technology:
Zip, rail or rope

Up to wind scale 5-6
according to the Beaufort
wind resistance scale

VERTICAL AWNINGS: VERTITEX II

COMPACT PRIVACY AND SUN PROTECTION FOR NUMEROUS INSTALLATION SITUATIONS:

VertiTex II is the most versatile vertical awning from weinor – with slim design and a strong function. With its particularly compact cassette, it is ideal for windows, patio sides or Glasoasen®, where subtle integration is important.

* Soltis® 86/92 fabrics have a plastic surface which is both durable and washable. However, this easily cleanable surface causes static friction on the fabric, which in-part results in it not rolling up smoothly. This brief jerking movement neither impairs the product's function nor durability in any way. Please note that the Soltis® 86/92 fabrics which are not in the screens by weinor® collection are charged extra and have longer delivery times.

** The fibreglass screen is not available for VertiTex II rope, rail and VertiTex WeiTop as of a construction width exceeding 300 cm.

Outstanding with:

Highlights / Equipment

Zip: Safe lateral guidance for large areas and high wind stability

Rail: With a guide rail for precise, laterally guided shading with a clear look

Rope: Filigree solution in an unobtrusive look for low wind load

Installation alternatives

Wall installation

Ceiling installation

A wide range of frame colours and fabrics – for an awning which matches your architecture and style perfectly.
