TERRAZZA PURE MAX GLASS PATIO ROOF

OUTDOORS WITHOUT LIMITS

With a span of up to 7 metres, the new Terrazza Pure MAX makes generous roofing possible – without any irritating middle posts. The innovative construction combines top stability and clear contemporary design. With the improved water drainage, the new patio roof from weinor provides better protection when it rains – even under extreme weather conditions.

Terrazza Pure MAX – technical details

Technology

| | |
|--|--|
| Max. roof width (single-section construction without a middle post) | 7,000 mm, single-section roof* |
| Max. order width | All widths possible, depending on the number of posts |
