TIME OUTDOORS

With the Terrazza Pure MAX, your patio will become your favourite place for spontaneous garden parties, relaxed family breakfast or for a quiet break alone. The new patio roof from weinor opens up a unique feeling of expanse for you. Therefore, your view remains free, your patio open – and your time outdoors unforgettable.

Under the Terrazza Pure MAX, life unravels really carefree. The generously dimensioned patio roof convinces with its resilient construction and perfectly shaped aesthetics – for an outdoors which is just as unlimited as your dreams.

Expanse without compromise

Enjoy unlimited freedom on your patio: With up to 7 m span, the construction creates generous space without an interfering middle post. Therefore, you experience open cosy living, enabling the expanse to take effect undisturbed.

Clear view, clear design

Thanks to the circumferential guttering at the same height, the elegant side faceplates and the concealed roof supports, you enjoy a peaceful, harmonious overall picture. It ensures relaxation, making the time under your glass roof even more pleasant.

No worries when it rains or snows

Even under extreme weather conditions, you can lean back and relax. Thanks to highly effective drainage (5000 l/h), your patio also remains dry during heavy rain and the optional guttering heating keeps the gutter free when it snows and is frosty. For you, this means: carefree pleasure under your glass roof throughout the entire year.

Accessories for all seasons

Transform your patio to a haven of well-being – for all seasons. With glass sliding doors a protected Glasoase® arises, customised shading ensures pleasant coolness in the summer and heating and lighting also make it possible for you to enjoy a cosy atmosphere on cool evenings. Therefore, you extend your home with a living space in nature which you can use throughout the entire year.
